## J . E . P A I S L E Y & C O L T D

**For all your Diesel Fuel  
Injection and Turbocharger  
Requirements**

**4 Nen Street  
Oamaru**

**Phone 03 434 8967  
Fax 03 434 8389  
E Mail [john@jep.co.nz](mailto:john@jep.co.nz)**

### Merry Christmas from all the staff at J E Paisley

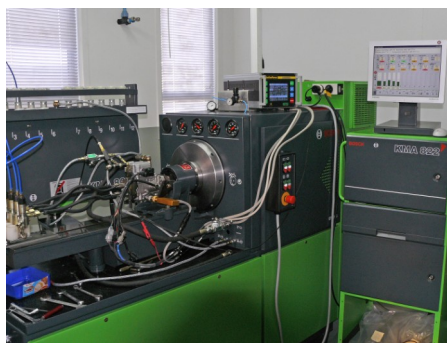

This is the first of what we hope will be a quarterly newsletter to help us keep in touch with our valued customers. In it we will try to feature technical hints and tips, along with interesting snippets of information that may be of interest to the automotive industry.

Too this end we would welcome any contributions from anyone with tips they would like to share with others. Likewise any questions you may have can be Emailed to [info@jep.co.nz](mailto:info@jep.co.nz) or faxed to 03 434 8389 we will endeavour to answer these in the next newsletter.

We would also take this opportunity to wish you, your family and staff a happy Christmas and new year.

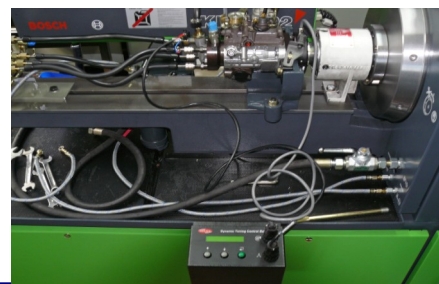

### Bosch 815 Test bench

Over the past 12 months we have made major investments in equipment in order to meet the increasing demands for accuracy by the leading manufacture of diesel fuel injection equipment. The latest Bosch 815 test bench installed 12 months ago will help ensure these stringent demands are met now and in the future. If you are in the area we would welcome a visit.

### DP210 Dynamic timing

Strict emission controls and the never ending quest for more HP and torque have lead Delphi to develop a highly accurate, Dynamic timing device capable of ensuring pump lock up accurate to within 1/4 of a degree on their DP210 fuel pumps. With the purchase of one of these kits, J E Paisley has been appointed the most Southern Authorized service agent for these pumps. One of only two authorized DP210 agents in the South Island.

### **Exchange pumps Available for**

**DE10 John Deere — Class**

**VP44 fitted to Nissan—MAN—Isuzu — Cummins**

**Japanese pumps available for WL Mazda - Ford Courier—4M40T Mitsubishi - Toyota 1HD T**

**Nissan Covec TD27Ti**

**Others available, ring us for details with the vehicle model and engine type**

**Authorised Service to the world's leading Diesel Fuel Injection systems**

**BOSCH**

**STANADYNE**

**DENSO**

**J E PAISLEY & CO LTD** was founded in 1959 by the late Jack Paisley. Specializing then in the service and repair of the Automotive - Industrial and Marine diesel fuel injection equipment. Over the years Paisleys became well known and respected throughout New Zealand for there work on Gardner and Leyland fuel injection Equipment and this continues today.

**Today** with a heavy investment in Equipment, Paisleys have kept abreast of the continually changing market and offer a comprehensive repair service for most of today's Diesel Fuel Injection and Turbo Charger equipment. An exchange programme for VP44 and DE10 type pumps allows a rapid turn around with a minimum of down time.

Zexel COVEC and most other light vehicle pumps and injectors can be serviced same day due to compressive stock holding of fast moving parts and nozzles. Give us a ring with your requirements and we will endeavour to help.

## C A P R I C O R N C H R I S T C H U R C H D I S P L A Y N I G H T

Thanks to everyone who visited our display stand and entered our competition. The two nozzles were from a single hole Toyota 90 HP 3L engine with a max speed of 5000 rpm and a 15 hole 9 cylinder 27000 HP marine engine with a max speed of 112 rpm. (Normal cruise rpm 89-93 rpm) this engine develops 3000 hp per cylinder. While there were a few close entry's too within 5 hp, there was only one correct answer. Congratulations then to Natasha from Leading Edge Automotive Ltd.

### ROAD SHOW

We look forward too meeting members in the deep south and central parts of the South Island

at the up and coming road shows in February. This will see us in Cromwell, Invercargill and Dunedin

### Turbocharger service

A major part, but probably one of the least known services that J E Paisleys can offer is the servicing of turbochargers from the larger heavy machinery and road transport and marine industries, right down to the smallest light commercial and private vehicle markets.

New Turbo's and spare parts can also be supplied at competitive prices. Give us a call and we will be happy to discuss your requirements.

Authorised Service to the world's leading Diesel Fuel Injection systems
